"DAWSON has done an outstanding job for us on multiple complex environmental remediation and munitions response projects including very high hazardous and emergency response actions".

Program Manager USAESC

Proven Project Experience

PROJECT: Defense Doctrine, Training, Leadership, and Education Support
LOCATION: World-wide Locations | **CLIENT:** Department of Defense
SCOPE: At strategic locations worldwide, DAWSON provides CBRN Defense training, professional military education, and Combatant Command and Joint Task Force level exercises. DAWSON also provides Joint and MultiService Tactics, Techniques, and Procedures doctrine and manual reviews and development. DAWSON provides education and top-level guest speaker support to intermediate and senior Service and Joint colleges.

PROJECT: Operation and Maintenance of COBRA Training Facility
LOCATION: Anniston, Alabama | **CLIENT:** Federal Emergency Management Agency
SCOPE: DAWSON provides 24/7 facility-based services support to include the operations and maintenance functions in a chemical and biological toxic agent environment. This includes operations and maintenance, hazardous waste management, and protective clothing and equipment laundry operations.

PROJECT: Joint Enterprise Contractor Logistics Support
LOCATION: World-wide Locations | **CLIENT:** Department of Defense
SCOPE: DAWSON provides Contractor Logistics Support (CLS) services related to the fielding of the Joint Service General Purpose Mask. DAWSON is providing task management, inventory, inspection, and total package fielding support at military locations world-wide. DAWSON is also providing New Equipment Training.

PROJECT: CBRN Response Exercise Support
LOCATION: CONUS | **CLIENT:** Army National Guard
SCOPE: DAWSON provides subject matter expertise in assisting military and government personnel in writing, synchronizing, and execution of live and virtual exercises designed to prepare key-leaders, units, and staff/headquarters elements in performing their CBRN Response Mission tasks. These exercises focus on Defense Support of Civil Authorities.

PROJECT: Counter Explosive Hazard Center Instruction Support
LOCATION: Fort Leonard Wood, Missouri | **CLIENT:** U.S. Army
SCOPE: DAWSON provides instructional services and hands-on traditional classroom, field, and Mobile Team Training support to assist the U.S. Army in the enhancement of its ability to operate in explosive hazard environments for execution of assured mobility and force protection mission sets. Instruction is based on defeating explosive hazards based on current threat and operational needs and requirements.

PROJECT: Training Performance Needs Analysis
LOCATION: Fort Leonard Wood, Missouri | **CLIENT:** Army Corps of Engineers
SCOPE: DAWSON conducted a needs analysis focused on comparing actual job performance and expected level of performance when conducting fuel systems design, repair, and construction quality assurance process. Tasks included developing a total task inventory, identifying critical tasks, developing the critical task list, conducting a total task analysis and developing a training strategy.

PROJECT: Joint Capabilities Integration Development Systems Document Updates and Program Support
LOCATION: Fort Leonard Wood, Missouri | **CLIENT:** Joint Program Executive Office
SCOPE: DAWSON provided research and analysis assistance in the development and updating of acquisition documentation for the Tactical Disablement System, Elimination Family of Systems and the Advanced Radiological, Nuclear Detection Family of Systems. This research included system capability requirements, interoperability, reliability, availability, and maintainability of equipment sets.

PROJECT: Mission Support Services
LOCATION: Fort Leonard Wood, Missouri | **CLIENT:** U.S. Army
SCOPE: DAWSON provided general technical, analytical, and operations support to the Army's Engineer, CBRN, and Military Police Schools. Support included Doctrine and Training Development, Training Support, Force Modernization, Simulations, and Analysis Support.
