- Accelerated acquisition through the Native 8(a) process
- Global presence including in-place and proven strategic partnerships with access to more than 15,000 personnel worldwide
- Cleared personnel allowing us to operate in secured environments
- Training and course development capabilities

Proven Project Experience

PROJECT: Business Operation and Integration Division and Real Property Support
LOCATION: Fort Benning, GA | **CLIENT:** Directorate of Public Works: Business Operation and Integration Division and Master Planning Division
SCOPE: Provided support in all phases of planning, programming, and sustainment of the 7,000 real property assets on post. Supported the Chief Financial Officer's Act for audit readiness by performing detailed analyses and reconciliations of asset files and General Fund Enterprise Business System (GFEBs) records.

PROJECT: DHA Education and Training Directorate (J7) Military Treatment Facilities Division (MTFD)
LOCATION: McLean, VA and San Antonio, TX | **CLIENT:** DHA
SCOPE: In addition, DAWSON supports the DHA J7's new Military Treatment Facilities Division (MTFD), coordinating education and training requirements at military hospitals and clinics around the world. With the management takeover of hundreds of military treatment facilities in October 2019, DAWSON assisted J7 leadership in standing up a new division to manage and evaluate all military health education and training requirements.

PROJECT: Expeditionary Engineering Facilities and Equipment Modernization Support
LOCATION: Tyndall AFB, FL | **CLIENT:** U.S. Air Force
SCOPE: DAWSON successfully executes Rapid Airfield Damage Repair (RADR) and Base Recovery After Attack (BRAAT) services including the capability to rapidly assess expeditionary airfield damage. We support employment of Small Unmanned Aerial Surveillance (SUAS) and Geospatial Information Systems (GIS) technologies to reduce the time required for assessment from hours to minutes; eliminate threats to personnel; and increase data sharing across Command and Control systems. We advise and assist in integrating aircraft parking plans, beddown planning, and doctrine, tactics, techniques, and procedures.

PROJECT: Chemical Defense Training Facility
LOCATION: Fort Leonard Wood, MO | **CLIENT:** Army CBRN School
SCOPE: DAWSON is providing 24/7/365 training operations and support services to the Army's Chemical Defense Training Facility- the Department of Defense's only training facility that provides a real-world, 3D, toxic training environment using chemical nerve agents. DAWSON is providing training operations support, air monitoring, protective clothing and equipment laundry and certification, safety and quality management, and facility support system preventive maintenance and repairs.

PROJECT: Defense Intelligence Agency (DIA) Counterintelligence (CI) Community Coordination Office (CCO)
LOCATION: Quantico, VA | **CLIENT:** DIA
SCOPE: Our current customer directs, manages and conducts Defense CI and HUMINT activities to meet Defense requirements. The DIA CCO is organized to direct, coordinate and deconflict CI and HUMINT issues across Defense, combatant commands, and the CI/HUMINT organizations with direct linkages to National CI and HUMINT organizations for coordination and deconfliction. It also includes functional support to the Portico Operations Module (POM) for Director for Support Operations (DSO4) as well as the management of the Special Access Program (SAP) and Force Protection Detachment Management (FPD).

PROJECT: U.S. Army Cyber Center of Excellence, G-6 IT Support Services
LOCATION: Fort Gordon, GA | **CLIENT:** U.S. Army
SCOPE: DAWSON provides a full range of Information Technology Services including Help Desk, Systems Administrators, System Security Engineers, IT Procurement Specialists and IT Project Managers supporting the Cyber COE, Cyber Training Facility and Signals Training Facility.
